DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Saturday, 09 November 2024 at 05:06 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels will remain predominantly Low across the UK, as the dry, cloudy and settled weather conditions continue. Some isolated pockets of elevated pollution is possible around towns and cities with any bonfires events.

Tomorrow: Low air pollution levels will persist across the UK through Sunday.

Outlook: High pressure will build to the west of the UK, maintaining largely dry conditions with light winds for many places. Low levels of air pollution are expected to persist across the UK.
